C-BOMB

WORLD'S MOST HORRIBLE DESTROYER!

A-Bomb Dad Sees End Of All of Us in C-Bomb

London, Jan. 28 (AP).—Prof. Otto R. Frisch, British scientist who helped build the first American atom bomb, believes a "cobalt bomb" could wipe out all civilization.

He Explains Why.

Frisch, now professor of nuclear physics at Cambridge University, told the British Atom Scientists' Association last night that the

in the earth and atmosphere "definitely will not support a thermonuclear reaction," or a chain explosion that would destroy the earth.

Making of a cobalt bomb would be more terrible, he said. Atom and hydrogen bombs "seeded with cobalt to make their radioactivity linger long" could devastate life

ABOVE: RESEARCHER SHOWS PANIC AT THOUGHT OF C-BOMB. OPPOSITE: ATOMS USED FOR CANCER TREATMENT. MAN BURNED IN A-BOMB BLAST.

Bottled up in the brains of a few key U. S. scientists is the know-how for construction of the most destructive weapon mankind has ever seen or even imagined. **The Cobalt Bomb.** This fantastic scientific nightmare is so powerful it could eventually destroy all life on earth.

Little is publicly known about this super-destroyer. Here are the simple facts about the C-bomb:

What is the C-bomb? It is an A-bomb with a gimmick—what the scientists call a "rigged bomb". The gimmick is cobalt, one of the cheapest and most common elements. The addition of cobalt increases the bomb's destructive power many times over that of the terrible H-bomb. Its effects last longer and cover a greater area than either the A-bomb or the newer H-bomb.

Here's how it works: Among all the elements cobalt is one of the best suited to the absorption of radioactivity—those rays of destruction that destroy all life—plant or

human. For this reason, radioactive cobalt which has been placed within the atomic pile until it becomes "hot" (radioactive) is now used extensively in the treatment of cancer. Thus the atomic scientists have produced a substance highly beneficial to mankind. But now they have gone a step further and used this same principle in the making of the diabolical C-bomb, capable of utterly destroying mankind.

When a cobalt A-bomb — or C-bomb — is detonated, the first observable effects are the usual ones

seen at Hiroshima and Nagasaki. **BUT**—and here is the gimmick — the C-bomb is not through then; it goes on to greater and greater destruction, lasting as much as four or five days. A C-bomb detonated over New York City would not only destroy America's greatest city but also extend its destruction several hundred miles away.

The cobalt in the bomb becomes atomized, forming a huge cloud of radioactive dust that drifts with the winds, covering vast areas and killing all life in its path. A C-bomb exploded in the American

C-BOMB'S RADIOACTIVE CLOUD AS IT WOULD START SPREADING. LIKE A AND H BOMBS, COBALT BOMB WOULD FIRST DESTROY BY FIRE AND BLAST, THEN DEADLY RADIOACTIVE CLOUD.

middle west could annihilate the grain areas of this country—not to mention the people. A C-bomb dropped in Chicago, with easterly winds, would not merely smash that city but would drift over the industrial east, destroying millions of acres of farmlands and millions of workers' lives.

That these atomic clouds are terrifyingly real is shown in a recent report from Australia. Instruments installed at the Australian National University recorded radioactive clouds over Canberra. These clouds had traveled hundreds of miles at 40 miles an hour from the atomic testing site west of Woomera. If that test bomb had contained cobalt . . . !

If that atomic cloud had contained radioactive cobalt, the effects would have made a tornado seem very gentle.

Is there any defense against the C-bomb? Can masks be developed to protect human beings against the radioactive dust cloud of atomized cobalt?

The next few months may bring an answer!

Glandular Inflammation

GLANDULAR INFLAMMATION, a constitutional disease, very commonly occurs in men of middle age or past and is accompanied by such physical changes as Frequent Lapses of Memory, Early Graying of the Hair and Excess Increase in weight . . . signs that the Glands are not functioning properly.

Neglect of such conditions or a false conception of inadequate treatments cause men to grow old before their time . . . leading to premature senility, loss of vigor in life and possibly incurable conditions.

NON-SURGICAL TREATMENTS at the Excelsior Institute are the result of 20 years research by scientific Technologists and Competent Doctors.

The War brought many new techniques and drugs. These added to the research already accomplished has produced a new type of treatment that is proving of great benefit to man as he advances in years.

The Excelsior Institute is devoted exclusively to the treatment of diseases of men of advancing years. Men from all walks of life and from over 1,000 cities and towns have been successfully treated. They found soothing and comforting relief and a new zest in life.

YOU MAY LIVE 10 YEARS LONGER!

now science can rebuild
you piece by piece

Human beings may soon live decades longer with the help of arteries from cows, lungs from sheep, or kidneys from ponies.

A recent life-saving operation in Munich, Germany, proved conclusively that tissues from animals can be transplanted and made to grow in man.

This is the latest in a series of dramatic steps in medical research, all leading to the day when we may possibly have eternal life with interchangeable parts for the human body.

By now we are all familiar with

ABOVE: CALF IS MADE READY FOR THE OPERATION. RITE: FRESH-KILLED CALF'S HEAD NOW GOES TO THE SURGEONS AT THE HOSPITAL.

blood banks. But now we also have artery banks for replacing sections of arteries that have become weakened due to infection or sclerosis. Among the most important spare parts is the substitute stomach, used when it is necessary to remove an entire stomach due to cancer or malignant tumor.

The substitute stomach is not, properly speaking, a stomach at all—but it works. Actually it is a foot-long section of the large intestine. It works all right because much of a person's digestion occurs in the intestines anyhow. Patients who have experienced this operation claim it is highly satisfactory.

Skin banks, bone banks, and cartilage banks are very common now. Substitute bladders and artificial kidneys have been made workable. There are seven eye banks throughout the country, and the oldest—at New York Hospital—has supplied corneas to more than 2,000 persons.

Mechanical livers and mechanical hearts, too, are now being used. Even false lungs and plastic heart valves have

CALF'S HEAD IN SEALED CONTAINER IS RUSHED TO THE HOSPITAL

been developed. The manufacture of spare parts for the human body has become an industry in its own right. It is even possible to build a male genital organ—using tissues from other parts of the body—for unfortunate men who have lost theirs in war, a not uncommon tragedy resulting from the action of land mines.

The human body has to some extent the ability to replace its own tissues when they are destroyed. Third sets of teeth, while not common, are known to have occurred. Hair, of course, replaces itself. And skin, if not too badly damaged, also replaces itself. But man does not have this ability to the marvelous extent that the frog has it. The frog, which resembles the human animal very closely in some respects, can replace its own arms and legs if they are cut away. Man, however, must use his inventive mind for such delicately complicated replacements.

ABOVE: SURGEONS WORK QUICKLY TO EXTRACT VITAL GLAND. BELOW: PATIENT IS WHEELED INTO THE OPERATING ROOM TO RECEIVE GLAND.

The replacement of damaged human parts is a surprisingly old story. Recently British doctors announced that plastic surgery to produce artificial noses was old stuff in India as far back as 1794. According to the Annual Register for 1794, a British medical journal, a man of Mahratta named Cowasjee had his nose cut off when

GLAND INSERTED INTO BODY OF HUMAN PATIENT, RESTORING HEALTH.

he was taken prisoner and enslaved. (This was common practice.) "For about 12 months he remained without a nose, when he had a new one put on by a man of the brick-maker caste." The details of how this was done are, of course, missing.

Probably that Hindu nose-maker either stole a nose from a fresh corpse or bought one from a poverty-stricken Pariah or Untouchable and simply grafted it onto the place where his patient's own nose had once grown. This would only be another version of the simple skin-graft that we practise everyday.

Such is man's insatiable curiosity and inventiveness that the day may yet come when human life will be indefinitely prolonged through replacement of tired and aged organs with younger ones or even with artificial ones. Such a possibility may be just around the corner.

“TOUGH KIDS”

OUST THEM FROM SCHOOLS?

Kid gangsters have taken over our city schools! They have become such a challenge that educators, forced to choose between harshness, and letting their schools be run by juvenile gangs, are demanding a change from “molly-coddle” systems of the past. They are asking that the laws

THESE TEENAGE GUNMEN WERE HANDCUFFED TOGETHER FOR SAFETY.

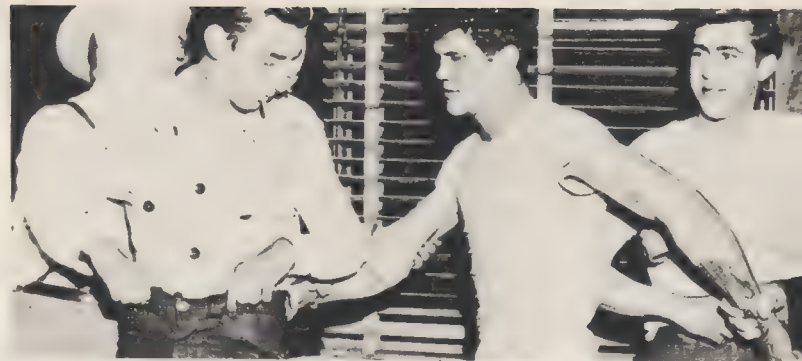

be changed so that they can kick trouble-makers out of school before they can contaminate those children who have not yet succumbed to gangsterism.

Recent surveys by the New York Daily News and the New York World Telegram indicated that the city's schools now "teach" everything from vandalism to dope addiction!

A group of prominent New York educators has advocated a solution for this hooliganism. Boiled down to plain English, their answer is "Throw the bums out!"

Under the present law, Abraham Leftkowitz, principal of Brooklyn's Tilden High School stated: "It is virtually useless to send anti-social students to Children's Court."

One of Leftkowitz's colleague's added to this statement.

THESE "TOUGH KIDS", ALL IN THEIR TEENS, ARE CONFESSED MURDERERS!
BELOW: MAN WAS INJURED IN RIOT BETWEEN KID GANGS IN HARLEM.

JUVENILE TERROR

"It is time that someone stood up and spoke in behalf of the thousands of decent children, instead of crying over a small number of maladjusted, warped, and evil delinquents."

"These few delinquent pupils," he added, "have disrupted the entire educational procedure, turned many classrooms into scenes of turmoil and thwarted our attempts to educate eager and willing students."

EXTREME LEFT: HIGH SCHOOL HOODS BEAT THIS GIRL! LEFT: TEEN-AGE GIRLS PICKED UP IN NARCOTICS RAID, LEARNED ADDICTION IN SCHOOL. ABOVE: YOUNGSTER SHOT AFTER BEACH HORSEPLAY WITH GUN.

This approach is an about-face from the progressive disciplinary system, considered by many to be a "safe" method of handling wrongdoers.

The schools have become custodial institutions instead of educational centers, Leftkowitz stated.

"They are not able to handle rapists, sodomists, arsonists, muggers and racketeers the courts say we must handle until they are seventeen."

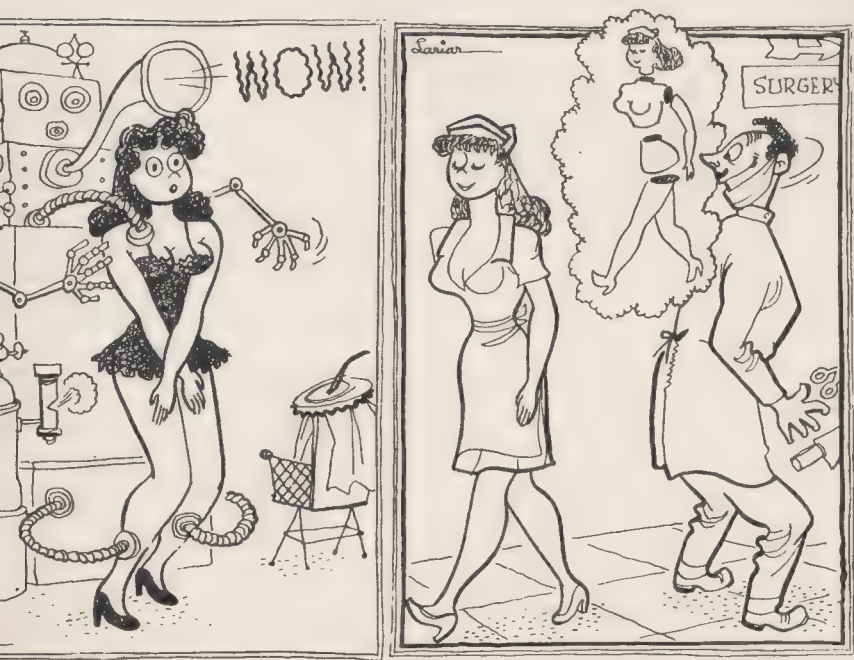

"Society must find some place for these children to be besides in the schools. All they do when they are held in is to try to escape either by truancy or by anti-social behavior toward authorities and other pupils."

More and more educators are turning, in desperation, to this answer!

I'm a pickpocket by trade. Not the type who jostles you on a crowded street corner or bus, perhaps, but still a professional. That's how I earn my living. Officially, I'm billed as a magician, but for years — both on the stage and before private groups — I've demonstrated techniques popular with pickpockets, otherwise known as "dips," or "cannons."

Today, more than ever before, we must be made aware of the methods used by these sneak-thieves, or else be ready game for the hunter. Since the war boom, when we became increasingly careless with our personal property, cannons have become a greater menace than ever before in U. S. history.

In New York City alone, the Pickpocket and Confidence Squad makes an estimated 5000 arrests annually.

Actually, "pickpocket" is an erroneous title for these crafty hoods. Half the time they commit robberies without

ABOVE: DOMINIQUE AND MISS GILBERT ILLUSTRATE WAY TO STEAL PURSE.

ever dipping into a pocket. They can remove a watch from the wrist of a man without his knowing it, slip the pearl stickpin from his tie, or empty the contents of a lady's shoulder bag.

Police and insurance investigators separate dips into four classification. The "pit worker" is the blueblood. He can flip a wallet out of a pit—or pocket—without suspicion. When he loses his grift—or nerve—he degenerates into a "moll-buzzer." This is a cannon who sacks ladies handbags. Farther down the scale is the "lush worker," who rolls drunks. And at the bottom is the "fob worker," who just lifts change.

Dips often escape arrest, as they have usually disappear-

LEFT: DOMINIQUE ASKS DIRECTIONS WHILE PICKING POCKET. RIGHT: WHILE SUCKER POINTS, DOMINIQUE LIFTS WALLET. DOMINIQUE AND ACTRESS BETTY GILBERT SHOW SNEAKY METHOD TO LIFT NECKLACE.

ed before their thefts are discovered. They seldom leave clues. Unless the booty is later recovered in the possession of a "fence"—a dealer in stolen goods—it will likely never be returned.

Most menacing of the dips is the part-timer; the hood or moll with a regular job as truck driver or clerk, but who operates when pressed for money. Police often have no record of them.

The best way to spot a dip is by his technique. Most professionals have specialties, but they usually operate with one of the following methods:

- 1) A smiling, well-dressed man asks for a light on the street. As he steadies your hand while you hold the flame, his fingers dart into your sleeve and unstraps your watch.
- 2) A bar wolf offers a girls a drink. As he smiles at her and offers a toast, his hand falls lightly on her shoulder. Whisk! No necklace.
- 3) A gentleman stops you for directions. As he stands close while you point out the route, his hand sneaks into your hip pocket and slips out your wallet.
- 4) As the bus or subway makes a sharp turn or stop, an attractive girl bounces against you. The only thing you feel is the bump, but she has removed your wallet and will be gone before you discover the loss.

There is no absolute way to prevent street robberies because a good dip will use a technique that best suits the occasion. But five "don'ts" that will help insure you

against them are: a) Don't open your purse or wallet in a pressing crowd. It's too great a temptation for purse snatchers. b) Don't carry shoulder-strap purse. It's too easy to filch. c) Don't carry all your money in one place. Hide it in several places in your clothing. d) Don't carry wallets in hip pockets. Use the breast pocket of your suit. e) And don't ever lay down a purse or wallet. It only takes a second for professional to lift it.

But dips don't operate exclusively on the streets. They will snatch a diamond necklace from a jewelry store counter, or a bar of soap from a wash-room. The public is never safe from them.

Don't let the above warning fool you into thinking being a dip is a good or easy profession, though. Most habitual pickpockets get caught. Top members of the Pickpocket Squad have learned to spot on sight most of the practicing cannons in their area. The most profitable form of pickpocketing is the kind I do—as a magician in a night club.

"MISS BIKINI 1954"

ROWAND

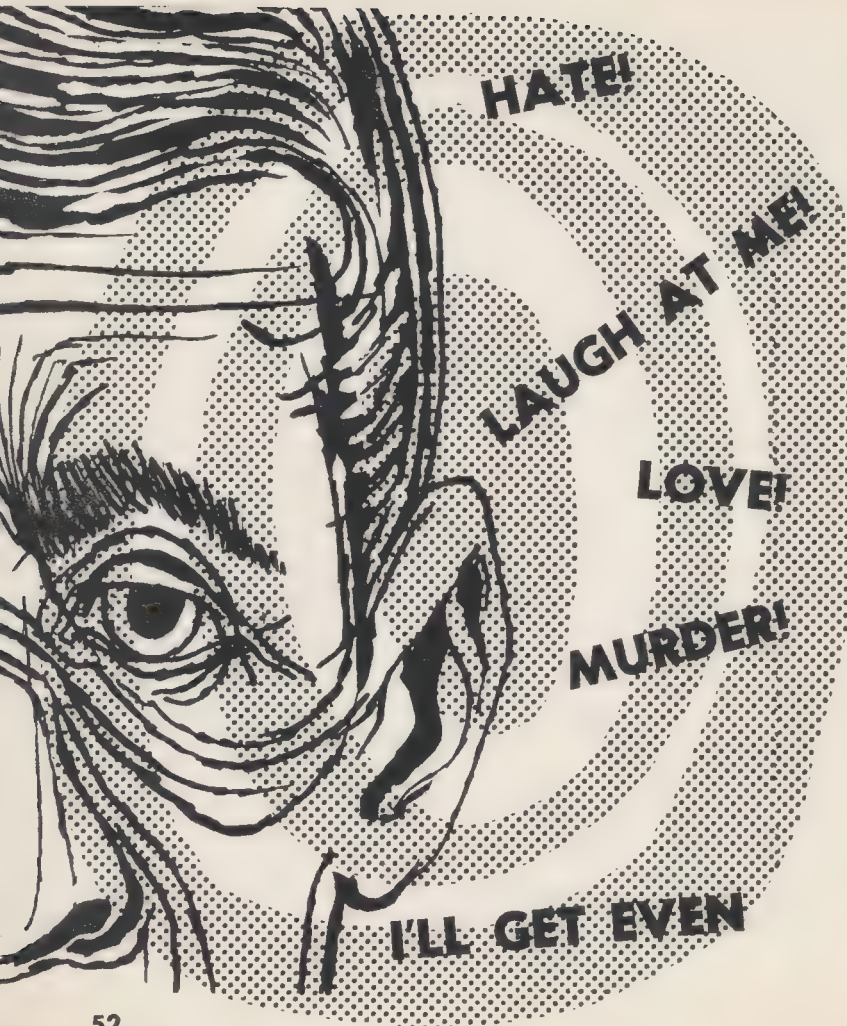

PAMPANINI

Are U. S. babes a bust? Denise Darcel in her scanties shows what French girls are made of. Can our blonde in the zebra bikini compete? We think so.

Gina Lollobrigida coined term "lollós", but we believe Silvana Pampanini is the real "lollo"-pal-ooa. But she can't put up a front like that of New York model Dorothy Rowand.

IS THERE A MADMAN ON YOUR STREET?

LOS ANGELES DAILY NEWS. July 20, 1953.—John M. Underwood, 46, a retired West Point officer who was released from a mental hospital last May on a trial visit, faced return to the hospital yesterday after hacking his mother to death with a bolo knife.

That curt news item is only one of countless reporting the murderous actions of innumerable maniacs throughout the country. Every day sees headlines emphasizing the

fact that insanity stalks among us in the deceptive form of our most commonplace neighbors. Not until that neighbor blasts a life away with a shotgun or slashes a friend to death with a kitchen knife do we finally admit what we were secretly sure of all along: that nextdoor neighbor was insane, and we knew it!

Robert Segee seemed a nice enough boy in his neighborhood. Then he set fire to a circus in Hartford, Connecticut,

cut, killing 168 persons. World-renowned killers Loeb and Leopold appeared to be nice boys, too, until they wantonly murdered a child—for thrills!

But in many cases there are warnings a-plenty. Take Harold Weinberg. He was discharged from Iowa State Mental Hospital. He was also institutionalized in New York's Rockland State Hospital from 1938 to 1945. He was analyzed as a schizophrenic and manic depressive type. Less than two months before he murdered Green-

wich Village poet Maxwell Bodenheim and the poet's wife, he was the object of a complaint to police, who replied, "We can't do anything (about him) until he commits a crime." According to artist Pat Meagher, who lived in the same house with Weinberg, "He would rave all night long. He would imagine he was a general leading troops to victory. He threatened us all the time." Miss Meagher added, "He would rave so much he was locked out of here, and we complained to the police. After we locked him out, he grinned at us and said: 'I have keys to all the rooms.'" Recalling the nocturnal ravings, Miss Meagher concluded, "We think we're mighty lucky."

In the case of Harold Weinberg, there had been plenty of warning that the man was demented. But often the symptoms are not so obvious, and the most innocent-seeming neighbor turns out to be a mad killer. When Howard Unruh walked out into the crowded street and started shooting up the town, no one who knew him could have predicted that this young man was a homicidal maniac. But before he was subdued he had killed 12 persons and wounded 5 others—men, women, and children indiscriminately.

When a Los Angeles landlord began leaving strange notes in his tenants' mailboxes, they ought to have known that

ONE OF NINE VICTIMS OF BERSERK FARMER WHO FINALLY SHOT SELF.

RITE: MAN RAN AMOK IN TIMES SQUARE THEATER INJURING FOUR MEN.

he was insane and dangerous. Some of the notes read: "A tenant who is behind in his rent out to be shot!" . . . "If you people don't quiet down at night, I'll burn down the ----- building!" Oddly enough, not one of his tenants even complained to the police. Not that it would have done any good if they had. Three of those tenants are dead now, blasted with a shotgun, and the landlord is in the insane asylum, where he should have been in the first place.

The only defense against these madmen is to report all cases of markedly peculiar or "crazy" behavior to the police immediately. It is a frightening thing to consider: that one's nextdoor neighbor may be a madman, ready to burst into homicidal fury at any moment!

The Cycle of Sex

PICTORIALLY REVEALED IN THIS EXCITING
NEW BOOK

Here is an unusual book — the kind men like. It's a story of two lovers who do things some people might not approve but who find happiness anyway.

The whole cycle of love and sex is described and shown in brand new pictures and words so bold. Here is a chance for a new kind of reading and looking pleasure. All we say is try it — you either fully agree that it is a real satisfying experience or we refund your money.

Jane Russell is cute on Steve Allen's bop fairy tales, **Hollywood Cinderella** and **Hollywood Red Riding Hood** . . . Jerry Gray's **The Creep** bright and bouncy, but I hope the lyric isn't banned! . . . Verna Leeds sounds as pretty as she looks on **Long Long Train** and **Alone At Our Old Rendezvous** . . . Joe "Fingers" Carr plays lightly and sprightly on **Humoresque** . . . Ella Fitzgerald and Georgia Gibbs are about tied for honors on **Somebody Bad Stole De Wedding Bell** . . . Nelson Riddle's bell-ringing **Brother John** you'll recognize as Frere Jacques . . . Jane Russell, Connie Haines, Beryl Davis and Della Russell sing very well on **Make a Joyful Noise Unto the Lord**, a double-helping of spirituals with great feeling and harmony . . . Patti Page may have a winner in **Cross Over the Bridge** . . . Jimmy Leyden's **Serenaders** should be big with **The Girl of Today** if enough of you hear and buy it . . .

FILM WORLD

In their attempts to rival highly sexcessful foreign films, Hollywood's movie moguls have come up with a promising

assortment of good film fare for the coming season:

One of the best is UA's "Man with a Million," using Gregory Peck's new-found comic talents. This opus is based on Mark Twain's

MARI BLANCHARD SPICES THE PROCEEDINGS IN "SON OF SINBAD." (RKO)

"The Million Pound Note."

A new Spillane movie features Anthony Quinn, who should have been doing Spillane's heroes all the time, putting guts into the role of Johnny McBride in "The Long Wait." He's backed up by a sexy foursome including Peg-

gie Castle, who also starred in "I, the Jury."

Columbia's "Indiscretions of an American Wife" should worry the risqué Roman movie-makers a mite. It was filmed in Rome, directed by Vittorio de Sica, and stars Jennifer Jones and Monty Clift.
